Enthusiastic and highly motivated IT graduate with strong foundational knowledge in web development and software engineering. Recently completed the 8th semester of B.Sc. CSIT and currently awaiting final results. Skilled in backend development using Django framework, with hands-on experience in building and maintaining web applications. Familiar with database management, basic networking, system troubleshooting, and version control tools like Git. Eager to contribute to IT operations, support, and development tasks in a dynamic work environment. Committed to learning and growing within the IT field while delivering reliable technical solutions.
